

## Fire repræsentationer med tallene fra 1-10

- Udprint siderne med mønsterpapir på bagsiden.
- Laminer og klip ud kortene ud
- Kortene bruges til at lære børnene, at der findes flere repræsentationer for tallene.
- Kan f.eks. anvendes til, at de tre repræsentationer, som ikke er tal, lægges på gulvet, hvor børnene skal finde dem, og gå tilbage til deres plads og skrive det tal som kortet repræsenterer. På den måde får de koblet antal med tallene og lærer at skrive tallene.
- Kan også anvendes som vendespil med to af repræsentationerne.
- Vendespillet kan spilles igen og igen, da det med nye repræsentationer fra gang til gang aldrig bliver kedeligt.

God fornøjelse
