

FORM OG FIGUR-STATIONER

5 stationer klar til brug i matematik i 0. klasse.

Alt efter hvor mange, der er på hvert hold, skal der nok laves dobbelt stationer af station 2 og 3.

Stationsundervisningen kan evt. startes op med en tur ud på skolen eller i byen, hvor der kigges på forskellige former. Det kan også være som afslutning.

God fornøjelse

FORM OG FIGUR-STATIONER

- 1 Find figurerne. Et ark til hvert barn. De skal klippe de 8 figurer ud, og lime dem fast ud for de former, som de tilhører.
- 2 Former og figurer. Laminer de 6 kort og læg dem i en bunke. Barnet trækker et kort og lægger det på pladen. Barnet laver nu en form med så mange kanter, som kortet viser. F.eks. står der 4, så laves en firkant. Brug tændstikker uden svovl.
- 3 Sorter efter form. Brug plastic/træ-former, hvad I nu har på skolen. Tag 20-30 fra, som børnene sorterer ud på pladerne.
- 4 Farv efter antal af kanter. Farv formerne i 4 forskellige farver alt efter hvor mange kanter de har. Et ark til hver.
- 5 Tæl formerne. Børnene skal tælle, antal af forskellige former. Et ark til hver.

CIRKEL

STATION

Farv efter antal af kanter.

A decorative border composed of a repeating sequence of colored circles in shades of purple, pink, brown, green, and blue, framing the central content.
